“Whatever it takes. Our people are driven to succeed” – *Bob Peacock, President, ALMAG Aluminum*

Recognized as one of Canada’s Best Managed Companies, ALMAG understands that true customer satisfaction comes from delivering an exceptional service and a superior product. Our goal is to provide Customers with peace of mind knowing that quality products, short lead times and customer satisfaction is our top priority through all four pillars of service — Design, Extrude, Fabricate and Finish. We believe in building strong relationships around reliability and ownership which go hand-in-hand with our core values; respect and fairness, humility, passion for progress and ownership. Recognizing that people create culture, our core values are fundamental drivers of our workplace environment.

JOB DESCRIPTION

Directly responsible to the Die Shop Supervisor. Must communicate with all plant production personnel. Functionally responsible for the cleaning and handling of aluminium extrusion dies

Key Responsibilities

- Ensure all extrusion dies are placed in caustic tank at the end of day’s production, once dies have cooled.
- Maintain a clean work environment in caustic enclosure.
- Use safety equipment supplied.
- Ensure that caustic tanks work at their best for fast die cleaning.
- Ensure all dies are rinsed well after removal from caustic and sand-blasted according to priorities specified by die shop when necessary.
- Empty caustic tanks using pump set-up when caustic is inactive and replace with fresh water and caustic solution.
- Ensure caustic room exhaust is working.
- Report any equipment malfunction to maintenance.
- Comply with all quality related policies, procedures and system requirements.

DESIRED SKILLS AND EXPERIENCE

Experience

- No experience is necessary for this position. Candidate must be willing and able to work with caustics and comfortable lifting up to 50 pounds.

Education

- Minimum of grade 8 education.
