“Whatever it takes. Our people are driven to succeed” – *Bob Peacock, Chief Executive Officer, ALMAG Aluminum*

Recognized as one of Canada’s Best Managed Companies, ALMAG understands that true customer satisfaction comes from delivering an exceptional service and a superior product. Our goal is to provide Customers with peace of mind knowing that quality products, short lead times and customer satisfaction is our top priority through all four pillars of service — Design, Extrude, Fabricate and Finish. We believe in building strong relationships around reliability and ownership which go hand-in-hand with our core values; respect and fairness, humility, passion for progress and ownership. Recognizing that people create culture, our core values are fundamental drivers of our workplace environment.

JOB DESCRIPTION

Directly responsible to Fabrication Supervisor. Must communicate with all plant production personnel. Functionally responsible for the production and quality of fabricated parts as per fabrication drawings. Ensure that a safe working environment is maintained at all times. This will be done by following Company policies and procedures. We believe that every Employee is responsible to act safely and to model good safety practices.

Key Responsibilities

- Operate all machines in the Fabrication Department in an effective and cost efficient manner while maintaining good quality and safety standards.
- Check samples periodically and ensure they match first piece sample check.
- Ensure first piece sample is double checked by other plant personnel.

- Ensure material is identified for shape number, work order number and quantity. If material is being used from stock, have stock number identified on work order.
- Ensure material is checked for proper cut length before fabrication.
- Responsible for reporting equipment malfunction.
- On-time order completion.
- Comply with all quality related policies, procedures and system requirements.
- All other activities as assigned.

DESIRED SKILLS AND EXPERIENCE

Experience

- 1-2 years in machine operations.
- Must be familiar with precision measuring instruments and the ability to read drawings.
- Willing to Train.

Education

- Grade 10 with some mechanical aptitude/ machine operator experience.
- Grade 12 would be an asset.
