“Whatever it takes. Our people are driven to succeed” – *Bob Peacock, President, ALMAG Aluminum*

Recognized as one of Canada’s Best Managed Companies, ALMAG understands that true customer satisfaction comes from delivering an exceptional service and a superior product. Our goal is to provide Customers with peace of mind knowing that quality products, short lead times and customer satisfaction is our top priority through all four pillars of service — Design, Extrude, Fabricate and Finish. We believe in building strong relationships around reliability and ownership which go hand-in-hand with our core values; respect and fairness, humility, passion for progress and ownership. Recognizing that people create culture, our core values are fundamental drivers of our workplace environment.

JOB DESCRIPTION

Directly responsible to Die Shop/Caustic Supervisor. Must communicate well with the schedulers, press crew and all other plant personnel. Functionally responsible for maintenance of all extrusion dies to achieve maximum yield/productivity.

Key Responsibilities

- In-coming die inspection sheet must be filled out when a new die arrives
- Prepare dies according to required press schedules
- Deliver the required dies to applicable presses
- Ensure graphite blocks and gauges are made available for dies requiring them
- Isolate dies to be corrected
- Polish dies after correction is completed
- Ensure caustic attendant is informed about priority dies

- Comply with all quality related policies, procedures and system requirements

DESIRED SKILLS AND EXPERIENCE

Experience

- Basic Knowledge of extrusion process with exposure to tooling/dies an asset
- Must be able to read drawings
- Candidate must be willing and able to work with caustics and comfortable lifting up to 50 pounds.
- Epics and outlook knowledge preferred.
- Quality driven with attention to detail a must.

Education

- Minimum of grade 10 education.
